The Road to Sustainability

TURTLE CREEK REST AREA

USES SUSTAINABLE CLEANERS!

What are Biobased products?

- A bio-based cleaner is formulated with products from plant and animal resources.
- Serve as excellent alternatives to petroleum based products as each ingredient comes from a renewable source.
- Biobased products reduce fossil fuel use, help to reduce our dependency on foreign oil and are generally better for the environment.
- Their performance parallels or exceeds their petroleum based counterparts.
- “Green” cleaning products do not contain dyes, fragrance or toxic chemicals.
- The use of “Green” cleaning products improves indoor air quality and is healthier for occupants and visitors.
